

The brutal effects of harsh air conditioning are hard to avoid during the hot and humid summer months; battle a dry, dull complexion with these mini skin saviours

### Face off

Enjoy soft, smooth and moisturised skin for up to eight hours with the perfect blend and aroma of the classic Eight Hour Cream. With a quick-absorbing formula that smoothes and softens rough dry skin, the moisturiser protects skin from the effects of extreme weather and climate change. AED 180 **Available at all major beauty stores**

### Multitasking

## **In good condition**

---

Unlike traditional toners which can strip and tighten the skin, Dermalogica's Multi Active Toner is lightly spritzed onto the skin. Suitable for all skin-types, the toner hydrates and replenishes lost moisture. The fine mist gets to work immediately, plus it can help set make-up and prevent it from melting in the midday heat – perfect for those moments hot-footing it from the car to the office!
