

It's front-seat viewing for sciencefiction fans and for those who remember the comic book series turned animation. Back for a second big screen outing, this time the Transformers tale travels to Egypt and France as Sam Witwicky (LaBeouf) finds himself caught up in the middle of a war between larger-than-life robots, the Autobots and the Deceptions.

Despite the film's obvious attractions for a male audience (non-stop action, stunning visual effects, and of course, feisty females) it does in fact still appeal to the female side with a truly original and exciting plot. Steven Spielberg stepped up to produce the comic-book turned mega movie with Michael Bay – and the evidence is surely in this soon-to-be cult classic. Our advice? Catch up on the first Transformers film, otherwise you may end up rather confused ...

*Transformers 2: Revenge of the Fallen – Dir Michael Bay, starring Shia LaBeouf, Megan Fox, Josh Duhamel*
