

With a dream directorial team of Steven Spielberg and Peter 'Lord of the Rings' Jackson, The Adventures Of Tintin is a fabulously entertaining old-fashioned romp – think Indiana Jones, only with a bequipped copper-topped cartoon character in the lead

Packed with swordfights, chases, great characters and snappy dialogue, the action never lets up for a second and thanks to the same motion-capture 3D technology used on Beowulf and The Polar Express, it looks the part too.
