Perfect Persian pair

Name: Luna and Luie

Age: Both four years old

Gender: Male (Luie) and female (Luna)

Breed: Norwegian Forest Cat/Persian (Luie), Persian (Luna)

History: Rescued by Feline Friends, the pair had already been micro-chipped. Both are now looking for a loving home together.

Personality: Luna and Luie are trusting, loving and despite not being very talkative – they love to purr. Luna and Luie are extremely good natured and seem to have the patience of two saints – they tend to avoid people if they feel threatened, but are building up their confidence daily. They would be well suited to a family home, though not with younger children. They are de-clawed. Luna and Luie are best friends, so must go to a loving home as a pair.
