

Gentle Jasper

Name: Jasper

Age: 1-2 years old (will make 17kg medium-sized dog when fully grown)

Gender: Male (not neutered)

Breed: Collie cross

History: Found in the area Between the Bridges, Jasper was trapped by SAD after a call to the SAD hotline. He has been with SAD since November and has been alternating between foster homes and the kennels during that time.

Personality: Jasper is a truly loveable gentle-natured dog – passive, submissive and charming. Jasper walks very well on the leash and is a true gentleman. Foster feedback has been very positive – he is a well-mannered dog who is fully house-trained and absolutely no trouble in the home. He would suit a home with no other dogs and a family looking for a well-trained dog quick to adapt to a new home.

All SAD dogs are fully vaccinated and vet health checked. To find out more about Jasper – and other dogs SAD has to home – call 050 130 7392 or visit www.straysofabudhabi.com
