

**A mini Miracle**

**Name:** Miracle

**Age:** 18 months

**Gender:** Female

**Breed:** Domestic short hair

**History:** Miracle, as her name suggests, has had a less than ideal start to life. She was rescued, as a very young kitten, by a family who had to give her up (due to allergies). She had an injury to her back leg which has healed well but left her with a slight limp. After she was surrendered to Feline Friends, she found another home; but unfortunately the family has had to leave the country and was unable to take her.

**Personality:** Miracle loves to have her silky white coat stroked and will reward your affection with lots of licks. She loves napping on laps and also likes to curl up on the foot of a bed or snuggle under the crook of your arm for a sleep. She has a sweet, playful, talkative nature; and despite being a little shy at first, she loves attention. She would suit someone who does not own dogs and has a lot of love to give. She would adapt to either an indoor or outdoor environment. Miracle tolerates other cats but prefers her personal space; she would be perfect for a quiet, older family.

*All Feline Friends cats are neutered, vaccinated, have been inoculated against rabies and are micro-chipped. If you can offer Miracle a home, contact Feline Friends on 050 823 1569 or email [info@felinefriendsuae.com](mailto:info@felinefriendsuae.com)*
