

Name: Peanut

Age: 2 years

Gender: Female

History: This lovely white and black lady has had quite a difficult time lately. She has been separated from her playmates, surrendered to Feline Friends and has moved from foster home to foster home, which is very confusing for her. At first she spent hours looking around for her two playmates and calling to them, wondering where they had gone but now she has settled down and is happy on her own.

Personality: She enjoys company and likes nothing better than to snuggle next to you for a cuddle. She is not a lap cat and doesn't like to be picked up but she does love to be close to you. When I'm at the computer, she will sit on my desk leaning against me so that I can stroke her with my left hand and carry on working with my right! So if you are looking for a relaxed cat who is not constantly demanding your attention, then Peanut will be perfect for you. Please give her a home, she deserves a loving family.
