

**Name:** Tango

**Gender:** Male

**Age:** Ten weeks

**Breed:** Crossbreed

**History:** Tango was found with his brother, Cash, on the beach off 19th street and was handed in to the American Veterinary Clinic. Unfortunately no owner came forward after the 48 hour holding period, so Tango then entered the SAD programme.

**Personality:** Tango is a playful, enthusiastic, handsome and loveable chap. He will make an excellent dog for a family who has the time to dedicate to his training and socialisation.

All dogs in the SAD programme are fully vet checked and vaccinated. To adopt the adorable Tango or for more information, visit their website [www.straysofabudhabi.com](http://www.straysofabudhabi.com), or contact them on 050 130 9372 or [info@straysofabudhabi.com](mailto:info@straysofabudhabi.com)
