

Name: Mattie

Age: Under a year

Gender: Female

Breed: White, red and black calico

History: Mattie was found half starved in Sas Al Nakhl Village three weeks after being spayed and treated by the British Veterinary Clinic in the middle of March for massive wounds on her back due to a cat attack. She was so desperate for food that she actually came right into a reader's home despite there being two cats and two dogs around.

Personality: Mattie is very sweet and trusting; she loves to purr and enjoys a lap to sit on. She will happily be picked up with no fuss and likes to greet people with a friendly nudge. Mattie is still recovering from her back injuries but she is healing well.

All Feline Friends cats are neutered, vaccinated and micro-chipped. If you can offer a home, contact Feline Friends on 050 823 1569 or email info@felinefriendsuae.com
