Name: Eva
Gender: Female (spayed)
Age: 4-5 months
Breed: Crossbreed
Size: Medium (currently 12kg, but could make 15kg when fully grown)
History: Eva was found wandering in the Khalidiya area and was brought in to the American Veterinary Clinic. After no-one came forward to claim her she was accepted into the SAD programme. Eva was named after one of our youngest volunteers.
Personality: Feedback from her foster family has been extremely positive. She is house-trained, walks well on a leash and has some basic training with knowledge of a few basic commands. Also, she's just awfully cute. Eva needs a permanent home with a family who have time to give her a good daily walk.

All SAD dogs are fully vaccinated and vet checked. To adopt Eva or for more information, visit SAD's website www.straysofabudhabi.com or contact on 050 130 9372 or info@straysofabudhabi.com
