

## There's something about Sandy

Thursday, 27 May 2010 09:43

---

**Name:** Sandy

**Gender:** Male

**Age:** 1 year

**Breed:** domestic short hair

**History:** Sandy was found hiding under a chair in someone's garden in Khalifa City A. Although the family had left food and water for him nearby, he was too afraid to have any unless he was certain that no one was around.

**Personality:** Although he's still a little timid and you can find him hiding in the wardrobe when no one's home, Sandy is much happier and more outgoing since being rescued. He's affectionate and loves company – and a good rub on the ears or belly from time to time. He's definitely an indoor cat; he uses the litter box and he doesn't bite or scratch. Sandy would probably most suit a single person or a couple without children.

All Feline Friends cats are neutered, vaccinated and micro-chipped. If you can offer Sandy a home, contact

Feline Friends on 050 823 1569 or
