

Name: Kip

Age: five months old

Sex: male (neutered)

Breed: crossbreed

History: Kip was found wandering around the Mina Port area. After no luck during the 48 hour holding period at the American Veterinary Clinic, the sweet little stray was then handed over to SAD.

Personality: Kip is a playful pup, great with children and other dogs so perfectly suited to a loving family. He'll need daily walks however, and owners willing to put in time for his basic training.

Kip has been fully vet-checked, vaccinated, micro-chipped and neutered. All he needs now is a good home. Think you've got room for him?
