

**Name:** Ellie

**Sex:** Female

**Age:** 1-2 years

**Breed:** Saluki (smooth-haired)

**History:** Ellie was found wandering with no collar or ID tag in Al Mushrif and taken into the American Veterinary Clinic. A chip was found but there was no contact information or name for the owner. When no one came forward after the clinic's 48 hour holding period, SAD took her in.

Ellie has spent several months with the team and could really use a loving home.

**Personality:** Ellie's a big girl, weighing in at 22kg, but she's a real lady with a sweet and docile nature.

Ellie's been vet-checked, vaccinated, wormed, chipped and spayed. She is house-trained and walks exceptionally well on the lead – and she'll need plenty of good walks to stretch those long legs. Her foster family also reports that she is one of the friendliest dogs they have ever met and that she would make a superb family pet.

To adopt Ellie or find out more, call **050 130 7392** or email [info@straysofabudhabi.com](mailto:info@straysofabudhabi.com) . Or for more information about other dogs available please visit SAD's website
